Responses for bidders queries in relation to Tender Specification No: **TN/28/CM/TSPL/2018-19** for SUPPLY OF 300+/-20% KT IMPORTED/DOMESTIC NON - COKING COAL ON FOR DELIVERED BASIS

S.no.	Queries	Responses
1	In case of price drop during the reverse auction, will supplier have option to change the offered tonnage in the initial bid.e.g. if we submitted our bid for 300,000 MT at US\$ X PMT and during the reverse auction process price dropped to US\$ X-2, then we would prefer to have option to change the bided tonnage from 300,000 MT.	Quantity submitted vide bid will be final and there will be no option to change the quantity during the reverse auction.
2	Also, we like to know the maximum monthly schedule quantity for despatches:- e.g. as per Tender, delivery schedule for 1,00,000 MT is 25 days, & if contract is awarded to 3 vendors, can TSPL give simultaneous delivery schedule of 1 Lakh each to all 3 vendors giving schedule of 25 days to all 3, therefore making actual delivery schedule as 3 lakh MT in 25 days, which shall not be possible to deliver. Or maximum monthly quantity shall be divided pro rata between the vendors.	Ideally will be 1,00,000 MT per month to be dispatched but it will be at TSPL's own Discretion .
3	Extension tender opening date to 31 Dec 2018	Timelines shall be as per tender document.

Regards,

TSPL.
